It is important to me that you are completely satisfied with your portraits. If for any reason you are not 100% satisfied, then you are entitled to a choice of a reshoot or a full refund. My goal is for you to take home your portraits & enjoy them on your walls for many years to come!

Digital Files

I am dedicated to creating quality custom printed portraits for you & that is what I am in the business of selling. All customers will receive low resolution digital files of all portraits purchased that you can share on social media, etc. If you are interested in high resolution digital files, the option is available only after a minimum \$1,500 print purchase. At that time a flash drive can be purchased for \$500 and the agreement that all files will be reproduced at a reputable lab (I have a list of local quality labs available). This sale includes limited licensing, for personal use only. Images may not be used in publications, contests, etc., without the explicit written consent and highly visible credit to the photographer. Professional Portrait Sessions are handled differently than other Portrait Sessions.

Planning, Previews, and Viewings

Free Planning Session

The success behind every portrait is in the planning! From location to clothing, this is one of the most overlooked, yet important, parts of creating a timeless portrait.

Previews

After your portrait has been taken a small selection of the images will be posted on line so you can have a "sneak preview." We will then set up a time for you to come place your order. All decision makers are encouraged to be present at this appointment. You will see your portraits on my large screen to better visualize Wall Portrait sizes & see smaller details & expressions. I will also be able to show you cropping suggestions and collage ideas. This is a fun appointment!

NOTE: Take photos of all your walls that you are considering hanging your portraits- place a 8.5x11 piece of paper in the center and I will show you how your portraits look on your own walls!
